Thank you all for the feedback! I know what needs to happen next.

Before I proceed, we'll need approval for the following expenditures:

- up \$500 for the migration of the website to a new hosting partner and updating of the website software so that it is stable. (This is a 1-time expense).
- \$340 that will cover hosting, maintenance, and SSL certificate for the next 2 years. (This is recurring)
-

Can I get a 2nd and vote please?

Thank You,

James
